DISGRACEFUL FIGHT.

ENCOUNTER BETWEEN BILL POOLE AND JOHN MORAISSEY-MORRISSEY TERRIBLY BEATEN.

On Wednesday night Bill Poole and John Morrissey, the pugilists, with some of their friends met at the City Hotel, corner of Howard-st. and Broadway, when, before separating, a match was made, Morrissey betting \$50 that Poole dare not fight him. The latter took the bet and mentioned time and place, naming 7 o'clock this (Thursday) morning. on the Pier foot of Amos at , N. R. Before the hour ap pointed Poole with a number of his friends were on the ground and were not long in waiting before Morrissey, accompanied by quite a number, having great faith in his strength and powers of endurance made his appearance. After very little ceremony Morrissey, who was dressed in a neat summer suit, opened the ball by making a pass at his adversary with his fist. The blow missing its destination, Poole seized Morrissey around the waist, threw him with great violence to the ground, and then went at him with fists and feet, beating him in the most frightful manner, gouging out his right eye, the sight of which, it is thought, he will lose-cutting head, face, ears, and in fact, during the space of five min-nter—that being the length of time the fight lasted—disfiguring him in such a manner that he was scarce recognized by his friends.

Morrissey seeing no chance of escape, and fearing that his life would be sacrified, cried enough, when he was released, placed in a light carriage and driven away by a small lad. Immediately after the oncounter was over, the Ninth Ward Police arrived at the spot, but as we are informed, made no arrests. Some four hundred persons had collected on and about the River and boats lying by to witness the disgraceful affair. Poole received but very slight injuries; one of his eyes being considerably blacked. After the fight had ended Poole, with a friend or two, jumped into a boat and rowed up the river. It is stated that Morrissey chose this rough and tumble manner of fighting. He alleges that several persons were upon and striking him at the same time, but this is positively denied by Poole, who says that no one touched Morrissey but himself.

The main fight being over and the principals gone, soveral less noted villians came in collision. John Lyng got blow on the nose while defeading his friend Morris No others were seemingly hurt. The police, after their arrival, quickly dispersed the fighting crowd, and order was soon restored. Very smart police. The station-house is about three minutes walk from the scene.

THREE DAYS LATER FROM EUROPE. ARRIVAL OF THE AFRICA.

The R. M. steamship Africa, which left Liverpool on

Saturday foreneon, July 15, arrived at this port at 9; o'clock this morning.

The political news continues important. It is now doubt that the Russian troops have received counter orders and do not quit Wallachia; and that the Austrians have for the moment entirely relinquished the idea of a peaceful occupation of the Principalities. The French army of the north is embarking in English

dips-of-war at Calais and Boulogne. There has been severe fighting on the Danube.

The Spanish insurgents maintain themselves, and may

carry on a protracted guerrilla war. The news from the Danube is important.

The Paris Presse states that on the 7th of July the Turks took Mokan and Olneika Islands: and on the 8th Omer Pacha, with 40,000 men, surrounded the Russians and took Giurgevo. The Russians out their way through, with the loss of 900 hers du combat. Gen. Churleff lost

The Turks have also crossed, in the face of the Russians. at Oltenitza. Details are wanting: but 150 wagons, with wounded, have already arrived at Bucharest. Among the wounded are eighty officers. A dispatch from Belgrade calls the island Kamadan-Soymonoff, and says that the battle lasted nearly twelve hours. In evacuating Giner-gevo the Russians burned some of their ships.

There is no longer any doubt that the withdrawal of the Russian troops from Wallachia is suspended. In Moldavia the Russians are fortifying the pesses, and have destroyed the bridges, and by damning up the rivers have rendered the roads impassible.

Since Wednesday, June 28, they have completely closed the Transylvania frontier. All indications seem to testify that Bucharest will be defended.

Redschid Pasha has resumed office as Turkish Minister of Foreign Affairs.

THE WAR.

THE BALTIC.

The fleets retired from reconnoitering Croustadt, on the eth July. Cholera had broken out on board several ships: the French ship Austerlits had seventy cases. Such, at least, is the reason assigned for the withdrawal of the ships. The fleet is now anchored at Baroscound.

A private letter from the Gulf of Bethnia of 30th June, states that the small Russian island of Signiskir, had been attacked by the British frigate Valorous. The tower of the lighthouse, facing the coast of Sweden, had been destroyed.

THE BLOCKADE OF THE GULF OF FINLAND. An effective blockade of the Gulf of Finland is officially announced, from and after the 26th of June—that is to say, the whole of the ports in the Gulf of Finland to the eastward of Helsingfors and Sweaborg, on the Finland shere, including Borgo, Lovisa, Pythis, Orederickshaun, Werelax Bay, Wyborg, Biorko Sound, and all intermediate ports, roads, havens and creeks to Cape Lubovki, in lat. 60° 5° north, and long, 29° 50° east. From Cape Loubovki, the line of blockade crosses to Tolboukin Light, immediately off Cronstadt, then across southward to off the town of Borki, in the province of St. Petersburg in lat. 59° 57° north, Ion. 29° 28° east; thus a complete blockade of Cronstadt and St. Petersburgh has been effected by the combined fleets, which anchored off Cronstadt on the 26th June. Proceeding westward, the line of blockade extends from Borki to Karavaldi Island, thence to Dolgoi Ness, and from Dolgoi Ness te Kolgenpia Point, which includes the Bight of Koporia, thence to Kourgoulo Peint, which includes the Bight of Koporia, thence to Kourgoulo Peint, which includes the Bight of Koporia, thence to Kourgoulo Peint, which includes the Bight of Koporia, thence to Kourgoulo Peint, which includes the Bight of Koporia, thence to Kourgoulo Peint, which includes the Bight of Koporia, thence the River Narva, and the whole coast of Ethonia and adjacent islands to Etholin Light, situated in lat. 59° 43° north, lon. 25° 48° cast. And all measures authorized by the law of nations, and by treaties with neutral powers, will be put in force against all ships attempting to violate the said blockade.

Cholera continued to prevail at St. Petersburg on 28th June the police report stated the number of cases at 405, on the day preceding it was only 114, and on the lat July there were 580. THE BLOCKADE OF THE GULF OF FINLAND.

FROM GERMANY.

The Oest. Correspondenz contains an editorial stating that almost all the German Governments have promised to give their support to a motion to be made in the German Diet, that the whole of Germany do toin the Austro-Prussian alliance. The King of Wurtemberg still stands aloof, but it is considered certain that he will eventually join.

The Correspondenz Burcau states that Austria will finally summon Russia to evacuate the Principalities within a month, and will occupy Wallachia without waiting for a reply.

INDICTMENT OF THE GREEK EX-MINISTER.

Twenty practical Samiote vessels have been burned by an English steamship. The merchant-quarter of Solonica had been fired by incendiaries; a large quantity of grain and tobacco was burned.

Domiciliary visits had been made at the house of M. Metzen, ax-Minister of Greece, at Constantinople, at the office of the Bank of Athens, and at several other places. M. Deliani, Secretary-Gereral of the Interior, had been dismissed, and General Spiro-Miliost, formerly War-Minister at Athens, and now a praconer, is to be indicated for illegally appropriating the public money in connection with the suppressed Greek insurrection. Col. Soutos, Secretary of the War Department, and Gen. Vlachoupulos, Military Inspector, have also been clied to give an account of funds to the extent of 400,000 drachmas each. Grivas has to account for a similar sum. The Director of the bank who paid over these funds to him has been examined in private as to whose authority he had for making the payment. The information he gave has not transpired.

ASIA.

Letters from Erzerorem, of June 19, state that the Russians were in motion along their whole Asiatic line. They are concentrating on positions where defensive warfare can easily be converted into any measure which circumstances may invite. Bitter complaints are made against the inactivity and incapacity of the Muchir, whose car is represented as completely held by the Polish officers, to the detriment of General Guyon, Colonel Stein, and other approved officers.

GREAT BRITAIN.

In the House of Lords, on the 13th, the Bishop of Oxford called the attention of the Government to the fact that the first effect of the deliverance of the Circassian Coast from Russian dominion, were the active revival of the slave trade in girls for the market of Constantinople. The Earl Clarendon explained the difficulties that lie in the way of extinguishing this custom. He also stated that Schmayl is opposed to the trade in Circassians, and that the present being a favorable opportunity, all that can be done for its suppression will be done by the British Government. In the House of Commons Lord John Russel stated, in answer to a question, that an effective blockade of the months of the Damble is established; with respect to the blockade of the Sea of Azoff, and the intermediate ports of the Black Sea, some doubt had arisen as to its being quite in conformity with the law of nations, and the subject had been remitted to the Courts of Paris, London and Constantinople; the result will soon be declared. A letter in The Times, over the signature of "C. perhaps the "Earl of Carlisle," explains that the Russian Count Pahlen at present in London, is not a political agent of the Czar, but is merely a private Russian gentleman, who has only once been in Russia in thirty years past. His business in England is to settle his private affairs and then to return to the Continent. In the House of Lords, on the 13th, several of the Lords bore the highest testimony to the character of the Count. Lord Malmesbury very properly taking the occasion to comment on the absurdity and impropriety of speaking of the Russians as "barbarions."

SENATE WASHINGTON, Thursday, July 28, 1854. Mr. ADAMS moved to take up the bill granting a pen-sion to the wislow of James Batchelder. Mr. HUNTER appealed to the Senate to take up now the Civil and Diplomatic Appropriation bill, and dispose of it to-day.

Mr. ADAMS withdrew his motion.

of it to-day.

Mr. ADAMS withdrew his motion.

The Civil and Diplomatic bill was then taken up.

Mr. Mallery's amendment that two persons be appointed to take testimony as to depredations by Indians on private property in Florida and Iowa was agreed to.

An amendment providing for a commissioner to examine and report upon the extent and value of the possessory rights of the Hudson Bay Company in Washington Territory, and authorizing the President to purchase the same, at a price not exceeding \$500,000, was offered by the Finance Committee and agreed to.

The propositions to increase the compensation of the clerks in the State Department and of the clerks in the Coast Survey Office were offered and both agreed to.

The vote rejecting the increase of salaries of the Ministers of France and England was reconsidered. Year 17, pays 15.

Mr. MASON then modified it, increasing the salary to \$15,000, and that hereafter there shall be no outfit. De-bated.

HOUSE OF REPRESENTATIVES. Mr. HOUSION made a report from the Committee of Conference on the disagreeing votes of the two Houses on the amendments to the Indian Appropriation bill. Report Mr. BARKSDALE asked the unanimous consent of the

not admitted.

Mr. CHANDLER made an ineffectual attempt to in the duce a resolution calling on the President to furnish the House with any official information which has been received at the State Department concerning the bombardment at Greytown or San Juan, together with copies of instruction to the captain of the vessel who made the af-

tack.

The House then resumed the consideration of the bill regulating the pay and increasing the efficiency of the

army.

Mr. PHELPS said something ought to be done to promote the efficiency of the army. That part of the bill increasing the pay of the rank and file, and providing for promotions among the privates met his approbation, but he was opposed to an increase of the pay of the officers of the army. He desired the bill to be amended. If this could not be done, he should vote against it.

DECISIONS.

Titus Hutchinson, Jr. agt. Cornelius Vanderbit.

By a passenger on the Nicaragua route for California, who purchased a through-ticket, to be conveyed on the Pacific side by the steamer North America, but which vessel was lost on her way to take in the passengers, and plaintiff returned to New-York. In a suit for damages the Jury gave him a verdict for \$772.50. The Court had charged the Jury that he was only entitled to the amount of his ticket and expenses. Motion is made for a new trial. Motion allowed unless plaintiff consents to reduce verdict to \$400.

Leavin T. Robbins agt. John Coderan and Henry Holdredge.

To recover \$4,400, being liftly-eight days damage on bark John Fehrman, chartered for San Francisco. at \$75 per day. In defense it was said that the delay was mainly owing to the fault of the master of the vessel himself. Judgment for plaintiff, \$2,783.45.

Two Young Men Drowned.—A sad event took place at Irondequoit Bay, some five miles from this city, yesterdry. Two young men and a boy went to the Fionting Bridge, at the head of the Bay, and procured a small skin for fishing purposes, in which they went down to the Smil Bar. Previous to leaving, they drank quite freely of brandy, whicky, and beer. While on their return up the Bay, and when not far distant from the steam saw-mill, the skiff was capsized, and the two young men were drowned. The boy who was rowing the skiff, desired one of the men to relieve him. In attempting to pass each other, the skiff was upset. All started to swim toward the shore—the boy leading. He reached the shore in safety, but the young men both sank.

FILLIBUSTER EXCITEMENT IN KENTUCKT.—There is a great deal of unnecessary excitement provailing in certain sections of this State, caused by the eurollment of a number of young men as volunteers in the proposed Cuban expedition. In Lexington, certain parties have gone so far as to cause the arrest of Mesars. K. M. Johnson and John Haldeman, two gentlemen of that city, who are charged with being actively engaged in the enlistment of troops. In this city it is well known that a Company has been organized, and in the towns of Hepkinsville, Bowling Green, &c., the same thing has been done. The chief field officers of the Kentucky regiment was stopping at one of our leading hotels for some days last week.

COMEAN HOUSE STRUCK BY LIGHTSING.—There were two very severe thunder showers at Rye Beach yesterday. At about 5 o'clock, the lightning struck the Ocean House, passing down on the different conductor, into the ground, with the exception of the conductor, near the gentlemen's sitting room, where, coming in contact with the bell were, it passed over that, melting about twenty feet of it. There were about twenty gentlemen and ladies in the parlor, but the shock was scarcely fe't by them, and no one was injured. About 140 persons were in the house at the time.

Departure of Missionaries.—The bark Sultana, clearing from India wharf this morning for Malta and Smyrna, had on board as passengers the following missionaries who leave for the several missions under the auspices of the American Board: The Rev. A. G. Beebe and Mrs. Sarah W. Bebee, the Rev. G. A. Perkins and lady for the Arménian Mission; the Rev. C. A. Van Dyck, lady and three children, for the Mission to Syria. Missionary Goodell, daughter of the Rev. William Goodell of Constantinopie, as teacher. Hoston Transcript, 20th.

Gutrageous Alandonment of the U. S. Mail.—We have information from undoubted authority that the mail carriers to Utah are accustomed to throw away much of the paper mail after getting away up the Platte, and that there was a number of bags thrown away or abandoned, or thrown into a cave just above Fort Kearney, and in other places along the route. Is Government paying men for destroving the mail this way! It might be done cheaper at Independence before starting.
